HTML TAGS

HTML5

HTML5 is the latest version of HTML

```html
<!DOCTYPE html>
<html>
  <head>            <body>
    <title>          <a>              <blockquote> <dd>      <figcaption>  <header>    <label>      <meter>      <progress> <source>   <th>
    <base>           <abbr>           <br>         <del>      <figure>      <hgroup>    <legend>     <q>          <rp>       <span>     <thead>
    <meta>           <address>        <button>     <details>  <footer>      <hr>        <li>         <object>     <rt>       <strong>   <time>
    <link>           <area>           <canvas>     <dfn>      <form>        <i>         <main>       <ol>         <ruby>     <sub>      <tr>
    <style>          <article>        <caption>    <dialog>   <h1>          <iframe>    <map>        <optgroup>   <summary>  <track>
    <script>         <aside>          <cite>       <div>      <h2>          <img>       <mark>       <option>     <s>        <sup>      <u>
    <noscript>       <audio>          <code>       <dl>       <h3>          <input>     <menu>       <output>     <samp>     <table>    <ul>
                     <b>              <col>        <dt>       <h4>          <ins>       <menuitem>   <section>    <p>        <tbody>    <var>
                     <bdi>            <colgroup>   <em>       <h5>          <kbd>       <datalist>   <param>      <select>   <td>       <video>
                     <bdo>            <data>       <embed>    <h6>          <keygen>                 <pre>        <small>    <textarea> <wbr>
  <head>            </body>                        <fieldset>                                                             <tfoot>    <!-- -->
</html>
```
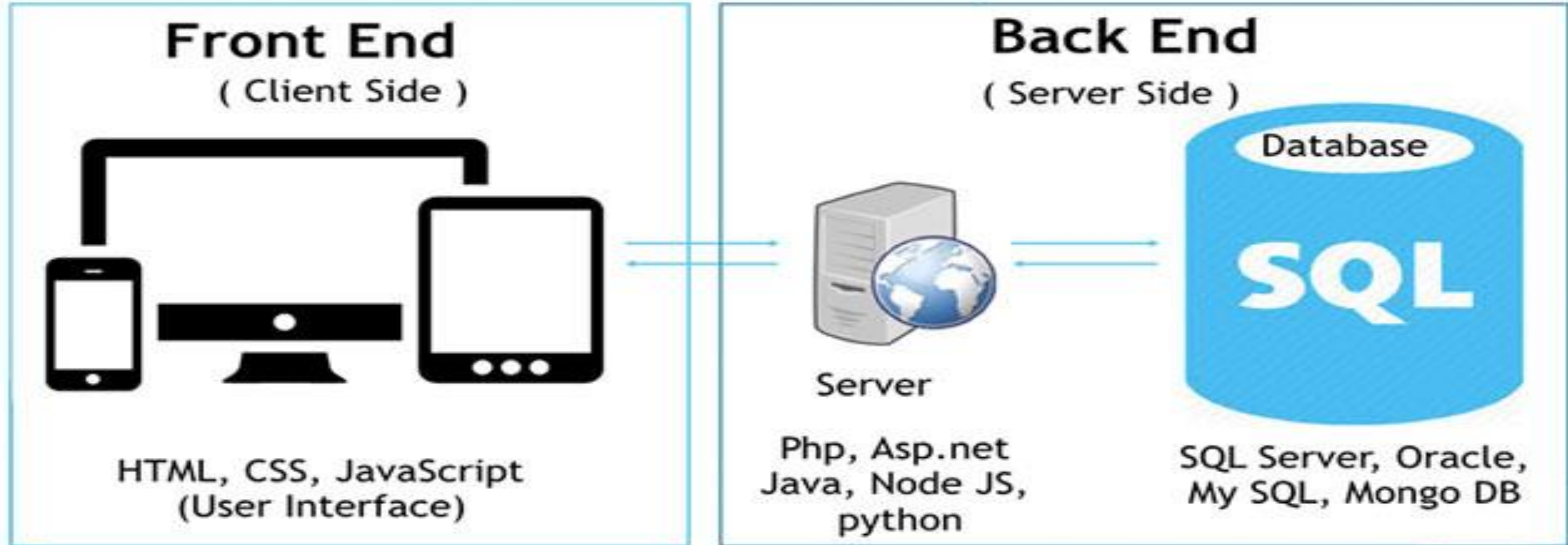

SAMPLE CSS CODE

```css
h1 {
    font-family: courier, courier-new, serif;
    font-size: 20pt;
    color: blue;
    border-bottom: 2px solid blue;
}
p {
    font-family: arial, verdana, sans-serif;
    font-size: 12pt;
    color: #6B6BD7;
}
.red_txt {
    color: red;
}
```
